

FUEL STORAGE – TRANSPORTABLE

ABBI

958 – 2,900 Litres

The Abbi is a range of fully bunded fuel tanks designed for transportability and ease of use. Fully approved for on road and off road transport, Abbi storage tanks are well suited as a mobile bowser, travelling around construction sites refuelling all applicable machinery and equipment.

FEATURES

ACCESS HATCH

Allows access to inner tank for easy routine maintenance and inspection.

FUEL EQUIPMENT CABINET

Lockable integral equipment cabinet that keeps all equipment secure and captures any accidental drips or spills.

LIFTING EYES

Four lifting eyes for easy handling (empty/full).

110% BUNDED

Weatherproof bund ensures safe and environmentally compliant transport and storage.

FORKLIFT POCKETS

Quick and easy manoeuvring when detached from trailer.

INTERNAL BAFFLES

Designed to maximise stability and safety when handling the tank full of fuel.

IDEAL USES & APPLICATIONS

DROP TESTED AS REQUIRED UNDER ADR

FAST MOBILE REFUELLING

The Abbi range is a safe and reliable fuel storage solution for any location that requires quick refuelling of construction or auxiliary equipment.

SMALL AND SHORT-TERM FUEL REQUIREMENT

The Abbi range is the ideal solution for short term, on site fuel storage. It can be supplied as a standby tank or a mobile refueller – offering both applications as one unit. Abbi tanks are designed to operate efficiently on sites that require small amounts of fuel storage.

GENERATORS & AUXILIARY EQUIPMENT

Abbi tanks can connect to one diesel powered piece of equipment and dispense fuel by pump at the same time -- simultaneously extending generator run times and refuelling machinery efficiently.

LIMITED-ACCESS WORK SITES

For logistically challenging sites and remote locations, the Abbi can be safely lifted by crane or forklift precisely and quickly. Due to its mobile design, Abbi tanks can transport fuel to any site -- reaching even the most difficult locations.

SPECIFICATIONS	10ART	20ART	27ART
CAPACITY (NOMINAL / SAFE FILL(95%))	985 / 936 LITRES	1,940 / 1,843 LITRES	2,761 / 2,623 LITRES
